

REMARKS/ARGUMENTS

Claims 1-28 are canceled and newly added Claims 29-49 are presented for examination. The newly presented claims are added in order to comply with U.S. patent practice by deleting multiple claim dependency and "use" terminology. Otherwise, the newly presented claims embrace comparable subject matter as the original claims. PCT Rule 66.8(a).

No new matter has been added and the new set of claims do not go beyond the disclosure of the international application as filed. Thus, these new claims do not violate PCT Article 34(2)(b). All of the claims presented can be substantiated by the application as originally filed.

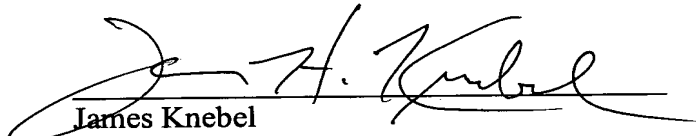

An action on the merits and allowance of the claims is now earnestly solicited.

Respectfully submitted,
